MINNESOTA MULTI-PURPOSE STADIUM AT A GLANCE

- Approximately 1.75 million square feet.
- 65,400 seats, including some of the closest in the NFL; expandable to 72,000 for a Super Bowl.
- Up to 116 suites and 8,000 club seats, including suites and clubs at the field level, some of which will put fans closer to the sideline than in any other NFL stadium.
- Seven levels, including two general admission concourses with 360-degree circulation and various views into the bowl.
- Highest quality HD video boards in the NFL located in both the east and west end zones and video ribbon boards throughout the interior of the seating bowl.
- Over 800 HD flat screen televisions throughout the building for all fans in attendance to view the game.
- Capability to host more events than any other large stadium in the world, including NFL football and a Super Bowl, MLS soccer, NCAA basketball and baseball, high school sporting events, motocross, concerts, conventions, marching band competitions.
- Access points to the city and stadium site from all four sides of the stadium.
- Large west plaza (nearly three acres in size) for game day, non-game day and seasonal public gatherings as a connection to the downtown corridor.
- Lightest and most efficient roof structure in the nation for a major new stadium, which will include a single large steel super truss providing primary support for the main long span roof.
- Largest clear ethylene tetrafluoroethylene (ETFE) roof in the country and the first on a stadium in the nation, allowing connection to the outdoors from a climate-controlled environment.
- Five large glass pivoting doors that will open to the west plaza.
- Application for LEED-certified status.
- Parking ramps with skyways from the north and south sides of the stadium and connections from the facility to the downtown skyway system.
